RED Emperor

Wherever you go in the early Spring, you will see and hear about Red Emperors. People plant them by the hundreds for spectacular effects. Yes, here's a gorgeous Tulip that actually blooms before the Crocus fade, with the Daffodils and Hyacinths . . . The only tall, large Tulip to flower so early. Massed in beds, grouped in the garden or arranged indoors, they create unusual excitement. Red Emperor is a masterpiece of brilliancy, grace and size. The color is spectacular . . . shining vermilion-scarlet, fluorescent in the sunshine. They open dinner plate size to reveal a richer hue of scarlet, with a glowing yellow base, ringed with black. Huge 9 in. blooms on 15 in. stems with robust foliage. Breck's Red Emperors are top-quality re-selected stock . . . guaranteed true to name. They are the finest bulbs you can buy anywhere . . . they are grown especially for Breck's.

Barge Load of tulip blooms being removed from bulb fields.

Every field in which Breck's bulbs are grown is kept immaculately clean. This insures vigorous, healthy bulbs. As illustrated above, every bloom is picked off the mother plant so all the strength can go into the bulb instead of the flower.

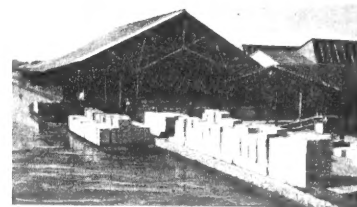

After digging and curing, Breck's bulbs are inspected and certified to be true-to-name and quality by an inspector for the Holland Government. Then the bulbs are further examined by the American Dept. of Agriculture experts to be sure they're disease-free. All Breck's bulb shipments bear the seal of the Dutch Government Inspectors.

NOTICE: You must order before July 15, 1957! After this date, bulbs will be shipped to America to be sold at regular prices! Holland bulbs give their glorious bloom each spring and can only be planted during the fall months. We mail this Sale Folder at this time, during the blooming season, so you can better plan your fall planting needs.

Breck's Holland WAREHOUSE

Hillegom, Holland —

The picture shows one end of the Breck's bulb warehouse—most modern in Holland—in operation.

The flat, sandy bulbfields spread out from Hillegom as far as the eye can see. From these fields—a carpet of beauty in the spring—come the world's finest bulbs, grown by the world's best growers. Canal barges bring baskets and crates of bulbs from the fields.

Upon arrival the bulbs are sorted—the biggest, most vigorous bulbs for Breck's; the smaller ones to other exporters. The bulbs are again thoroughly examined for defects and put into green "baby bags"—Breck's identification.

Holland's Choicest DIRECTLY To You . . .

Holland bulbs sold by other American firms usually go from the grower to an exporter, to an American wholesaler. Then they may be handled 2 or 3 times more before you get them.

Your Breck's bulbs are packed in Holland and not touched again until you open them!

Here's an amazingly different tulip! It's a beautiful rich crimson color, with velvet texture and graceful cup-shape. But where the petals of all other varieties have smooth, rounded edges . . .

Crested Marvel has an amazing delicate $\frac{1}{4}$ inch FRINGE! Each beautiful petal is outlined with this unusual fine feathered edge, giving it a soft quality never before found in tulips.

Crested Marvel was discovered by one of our bulb buyers last spring while he was examining hundreds of test varieties in Holland. This particular tulip stood out from all the others like a beacon of beauty because of its amazing lacy edges. Crested Marvel is a strong, reliable grower; has remarkable striking color, strong stems that hold the blooms 22 in. high. Blooms reliably in mid-season, following the early tulips. We strongly recommend it in every way!
